

Core Competencies

- **Digital Transformation:** Modernizing federal operational environments through the adoption of advanced digital technologies (*process automation, data analytics, artificial intelligence, machine learning and blockchain integration*).
- **Cloud Services:** Providing secure and scalable cloud solutions (from *cloud migration to architecture design and management*) to ensure Federal Client data is stored, accessed, and processed efficiently while fostering a seamless and agile IT environment.
- **Cybersecurity:** Protecting sensitive government data and critical infrastructure (including *risk assessment, threat detection, incident response, and compliance management*), safeguarding agencies against evolving cyber threats.
- **IT Operations and Maintenance:** Managing Federal IT systems, including *24/7/365 system monitoring, troubleshooting, and proactive maintenance* to minimize downtime and enhance productivity.
- **Agile Software Development:** Creating customized software solutions from *web portals to mobile apps*, fostering *digital innovation*.
- **Data Analytics and Visualization:** Leveraging the power of data to make informed decisions (*data integration, storage, analytics, and visualization services*), to gain valuable insights and support evidence-based strategies.
- **Geospatial Intelligence:** Delivering comprehensive geospatial intelligence solutions by utilizing advanced technologies and analytical expertise in transforming complex geospatial data into actionable insights to make strategic decisions with precision and confidence.
- **IT Consulting and Advisory:** Providing expert guidance and strategic IT consulting (*identifying technology gaps, formulating IT roadmaps, and optimizing IT investments*) for enhanced operational efficiency.
- **Training and Support:** Delivering *comprehensive training programs* to leverage IT solutions effectively. Additionally, AG Federal provides *ongoing technical support* to ensure the smooth and successful implementation of HW/SW installations and/or upgrades.

Empowered Partnerships and CTA Relationships

Empowered Partnerships

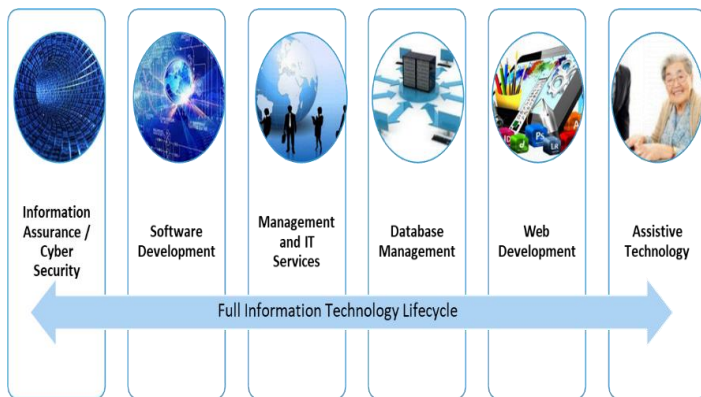

AG Federal is the Federal Practice “arm” of Arthur Grand Technologies, Inc. (AGT) and serves the DoD and Federal Civilian Agency community with all the corporate backing and resource management tools of the parent organization. Since the incorporation of AGT in 2012, it has always been the vision of its leadership to expand into the Federal market space with technology-based solutions to benefit the Warfighter and support the Nation’s mission.

AG Federal is led by Small Business subject matter experts in Government Contracting who have built their careers in DoD and Federal Civilian Agency programs. *Customer support is our mission and expanded partnerships is the corporate goal.*

CTA Relationships

Partnering in business is a formula based on timing, opportunity, and a strategic understanding of the benefits that each entity brings to the table. The CTA relationship between AG Federal and Magadia Consulting, LLC is indicative of the idiom “the whole is greater than the sum of its parts.” Collectively (and by design), our team targets opportunities where the collaborative offerings provide greater value for Government Clients. As a **100% Small Business Team** with big business capabilities, the CTA works to deliver a broader scope of services across communal capabilities while ensuring a low-risk, high-reward, cost-effective, industry best-practices based solution to the Government.
